1. Dashboard Overview

Welcome to the Manager Dashboard! This guide will help you effectively manage your team's attendance and leave.

The Manager Dashboard allows you to oversee your team members, approve leave requests, view attendance records, manage workflows, and generate team reports.

2. Navigation

The sidebar menu provides access to:

- Dashboard - Team overview and statistics
- Team Leave Requests - Approve/reject team leave applications
- Team Attendance - View team attendance records
- Team WFH - Manage team Work From Home registrations
- Duty Handover - Manage duty handover requests
- Team Reports - Generate team reports

- Workflow Management - Manage team tasks and projects
- My Attendance - Your own attendance records
- Settings - Account preferences

3. Key Features

Team management features:

Team Leave Requests

- View all leave requests from your team
- Approve or reject requests with comments
- Check team member leave balances
- View leave history
- Filter by status and date

Team Attendance

- Monitor team check-in/check-out times
- View attendance statistics
- Mark attendance for team members
- View attendance reports
- Identify attendance patterns

Team WFH

- View team Work From Home registrations
- Verify WFH addresses
- Review WFH update requests
- Monitor location alerts
- Deactivate WFH registrations

4. Step-by-Step Guides

Common workflows:

Approving Team Leave

1. Go to Team Leave Requests 2. Review pending applications 3. Check employee details and leave balance 4. Click "Approve" or "Reject" 5. Add approval comments 6. Confirm your decision

5. Tips & Best Practices

- Always log out when done using the system
- Keep your profile information up to date
- Check notifications regularly
- Use search and filters to find information quickly
- Review your settings and preferences periodically
- Contact support if you encounter issues

6. Troubleshooting

Common issues and solutions:

- Can't log in: Check your credentials or contact IT support
- Location not detected: Allow location permission in browser settings
- PDF won't download: Check your browser download settings
- Page not loading: Clear browser cache and reload
- Features not working: Try logging out and back in

7. Keyboard Shortcuts

While most navigation is done through the sidebar menu, here are some helpful shortcuts:

- Ctrl/Cmd + K: Search (if available)
- Ctrl/Cmd + R: Refresh page
- Esc: Close modals/dialogs
- Tab: Navigate between form fields

8. Support & Contact

If you need additional help or have questions:

- Check the Settings page for more resources
- Contact your system administrator
- Submit feedback through the Feedback section
- Review system notifications for updates

For technical issues, please contact your IT support team with:
- Your user type: manager
- Description of the issue
- Screenshots if possible
- Steps to reproduce the problem
